Capital and shares

Article 4.- The authorized capital of the Company is TWENTY THOUSAND MILLION PESOS (COP\$ 20,000,000,000), divided into TWO HUNDRED MILLION (200,000,000) registered shares, each with a nominal value of ONE HUNDRED PESOS (COP\$ 100).

Paragraph 1.- The authorized capital will be divided into ordinary shares but the Shareholders' Meeting at any time, with the legal requirements, may issue shares with preferential dividend and without voting rights of equal par value. Each share shall grant its holders the rights determined by these Bylaws, the law or the respective regulations for the issuance and placement of shares.

Paragraph 2.- Ordinary shares may be converted into shares with preferential dividend and without voting rights when approved by the Shareholders' Meeting, according to the procedure to be defined.

Article 5.- The Shareholders' Meeting may issue new shares or increase the nominal value of those already issued, through the capitalization of any reserve fund, premium in placement of shares or distributable profit.

Paragraph. - Any issue of shares may be revoked or modified by the Shareholders' Meeting, before they are placed or subscribed and subject to legal requirements.

Article 6.- The shares in which the capital of the Company is divided are nominative, will circulate in dematerialized form and will be represented by a macrotile, which will be kept in custody and its administration in the Centralized Securities Depository, which will make the annotations of the subscribers and will keep the bookkeeping of the Share Registry Book. Shareholders may request a certificate through their direct depositor, which legitimizes them to exercise the rights inherent in their quality.

Article 7.- Shareholders must register with the secretariat of the Company the address of their residence or the place where communications or reports are to be sent to them, and it is presumed that the notices or reports sent to the registered address have been given.

Article 8.- The Company may only acquire its own shares by decision of the Shareholders' Meeting with the favorable vote of the number of subscribed shares determined by law, with funds taken from liquid profits and provided that such shares are fully paid.

The buy-back should be carried out through mechanisms that ensure a level playing field for all shareholders. The buy-back price shall be fixed on the basis of a study carried out in accordance with technically recognised procedures.

The rights inherent in the acquired shares will be suspended as long as the shares belong to the Company.

Paragraph. - The Company may take with respect to the repurchased shares any of the measures authorized by law. The disposal of the repurchased shares will be carried out through mechanisms that guarantee equal conditions to all shareholders without the need to draw up a regulation for subscription of shares.

CHAPTER III Transfer and encumbrance of shares

Article 9. – The Company shall keep a register of shares, in accordance with the Articles of Association and the law. The transfer of the shares, as well as any embargo, lawsuit, pledge and other encumbrance or limitation to the domain that is related to them, will be made with the annotation in account by the Centralized Securities Depository and the registration in the Share Registry Book, in accordance with the applicable law.

The Company may delegate to a third party the holding of the Share Registry Book.

The status of shareholder will be accredited by certification issued by the Centralized Securities Depository.

Article 10.- In the event that the share is registered on a stock exchange, the purchase and sale of shares must be made through it, except for the exceptions of law. The disposal of registered shares may be made by the simple agreement of the parties and to be enforceable against third parties must be noted and registered in accordance with the provisions of these Bylaws.

In forced sales and court awards of shares, registration shall be made by production of the original or certified true copy of the relevant documents.

Article 11.- The Company assumes no responsibility for events not recorded in the transfer letter that may affect the validity of the contract between assignor and assignee. To accept or reject transfers, they will only take into account the external formalities of the assignment in accordance with the law.

Article 12.- Subscribed shares not fully paid-up are transferable in the common form, but the transfer does not extinguish the obligations of the assignor in favor of the Company. The assignor and the assignee shall be jointly and severally liable for the sums due, without prejudice to the sanctions and constraints provided for by law.

Article 13.- Unless otherwise stipulated between a shareholder and his creditor, the pledge shall not give the creditor the rights inherent in the quality of shareholder. The document in which the respective agreement is recorded, once the corresponding registration has been made, will suffice to exercise before the Company the rights conferred on the creditor.

Article 14.- Unless expressly stated otherwise, the usufruct shall grant all the rights inherent in the quality of shareholder, except those of alienation, encumbrance and reimbursement at the time of liquidation. For the exercise of the rights reserved by the owner and the respective document will suffice.

Article 15.- The dividends pending payment shall belong to the acquirer of the shares from the date of receipt of the transfer letter, unless otherwise agreed by the parties, in which case they shall express it in the same letter. However, if the Company registers its shares on a stock exchange, the rules relating to the minimum values for trading shares through said stock exchange and to the "*ex-dividend*" date will apply, in accordance with the applicable regulations.

Article 16.- It is understood that the acquisition of shares in the Company in any capacity implies acceptance of all the provisions of the Bylaws, the Code of Good Governance and any other document issued by the Company and that regulates the rights and duties of shareholders and the functioning of the corporate bodies.

CHAPTER IV Shares Subscription

Article 17.- The shares in reserve are available to the Board of Directors for issuance and placement when it deems appropriate. The issuance and placement regulations shall be approved by the Board of Directors in the case of ordinary shares. In the case of shares with

preferential dividend and without voting rights, the respective regulations must be approved by the Shareholders' Meeting, unless the latter, when ordering the issue, delegates such attribution to the Board of Directors. In the case of privileged or enjoyable shares, the respective regulations must be approved by the Shareholders' Meeting.

Article 18.- Shareholders holding ordinary shares shall have the right to subscribe preferentially in any new issue of ordinary shares an amount proportional to those they hold on the date on which the competent corporate body approves the issuance and placement regulations. The notice of offer of the shares will be given by the means of communication provided by the Bylaws for the convocation of the Shareholders' Meeting.

The right to subscription shall be negotiable from the date of the offer notice.

The origin of the right of preference in the subscription of shares other than ordinary shares will be regulated in each case in the respective regulations.

Article 19.- The regulations for the issuance and placement of shares shall contain:

1. The number of shares offered, which may not be less than those issued.
2. The proportion and manner in which they will be able to subscribe.
3. The term of the offer, which will not be less than 15 business days or exceed 1 year.
4. The price at which they will be offered.
5. The terms for the payment of the shares, expressly indicating the amount to be covered at the time of subscription and the maximum term to cancel the outstanding fees.

Such regulations shall be submitted to the competent authority for approval if the law so requires.

Paragraph 1. - In no case shall it be required that the price at which the shares are offered be determined by independent studies carried out in accordance with technically recognized procedures.

Where a shareholder is in arrears in paying the shares of the shares he has subscribed for, he may not exercise the rights attaching thereto. For this purpose, the Company will record the payments made and the outstanding balances.

If the Company has overdue obligations borne by the shareholders for quotas of the subscribed shares, it will resort, at the election of the Board of Directors, to the judicial collection, or to sell of account and risk of the defaulter through a commission agent, the shares that it has subscribed, or to impute the sums received to the release of the number of shares corresponding to the quotas paid, after deduction of 20% as compensation for damages, which will be presumed caused.

The shares that the Company withdraws from the delinquent shareholder will be placed immediately.

Paragraph 2. – If the payment of the shares is made by means of bills or other credit instruments, they will only be considered as released when the respective document becomes effective.

CHAPTER V Representation and Mandate

Article 20.- Shareholders may be represented before the Company for any of the statutory or legal acts through proxies appointed by any written means or electronic document.

The Company will recognize the representation thus conferred, from the moment it receives the corresponding communication.

Paragraph. - The power of attorney conferred for a meeting of the Shareholders' Meeting shall indicate the name of the proxy, the person in whom he may replace him, if applicable, and the date or time of the respective meeting. The power of attorney may comprise two or more meetings of the Shareholders' Meeting.

Article 21.- Each shareholder, whether natural or legal person, may only designate one individual to represent him at the Shareholders' Meeting, regardless of the number of shares held.

Article 22.- The shares shall be indivisible with respect to the Company and, consequently, when for any legal or conventional reason a share belongs to several persons, they must appoint a common and unique representative who exercises the rights corresponding to the quality of shareholder. In the absence of agreement, the judge at the registered office shall appoint the representative of such actions at the request of any interested party.

Article 23.- The executor with possession of property shall represent the shares belonging to the illiquid succession. If there are several executors, they will appoint a single representative, unless one of them has been authorized by the judge for that purpose. In the absence of an executor, the representation shall be carried out by the person chosen by a majority vote of the successors recognized in the trial.

Article 24.- The representative or agent of a shareholder may not split the vote of his represented or principal, that is, he is not given to choose or vote with a group of shares in a certain direction and with other shares in a different way. But this indivisibility of the vote does not preclude the representative of several shareholders from choosing and voting in each case according to the instructions of each represented or principal, but without splitting the vote corresponding to the shares of a single person.

Except in cases of legal representation, the directors and employees of the Company may not represent at the meetings of the Shareholders' Meeting shares other than their own, while in the exercise of their duties, nor substitute the powers conferred on them. The fiscal auditor may not act as an agent in any case.

CHAPTER VI

Article 25.- Each share shall confer on its owner the following rights:

1. Participate in the decisions of the Shareholders' Meeting and vote in it.
2. Receive a proportional part of the social benefits established by the year-end financial statements, subject to the provisions of the law and the Bylaws.

Article 26.- Two or more shareholders who are not directors of the Company may enter into shareholder agreements under the terms of law.

Article 27.- In cases of transformation, merger or spin-off, in which greater liability is imposed on shareholders or implies a deterioration of their economic rights, according to the terms of law, absent or dissident shareholders shall have the right to withdraw from the Company.

CHAPTER VII

Shareholders' Meeting

Article 28.- The Shareholders' Meeting is formed by the shareholders or their representatives or agents meeting with the quorum and the other formalities provided for in the Bylaws. Each shareholder will have as many votes as many shares he owns, with the restrictions that the law imperatively and unavoidably establishes.

Article 29.- The Shareholders' Meeting shall be chaired by the Chairman of the Company, by any of the alternate legal representatives and, in the absence of the above, by the shareholder or representative of shares designated by the Shareholders' Meeting itself.

Article 30.- The meetings of the Shareholders' Meeting shall be ordinary or extraordinary. The first will be convened within the first 3 months of the calendar year to examine the situation of the Company, appoint the directors and other officers of their choice, determine the economic guidelines of the Company, consider the general-purpose, separate and consolidated financial statements of the last year, decide on the distribution of profits and adopt the other decisions that correspond to it. If it is not convened, the Assembly shall meet in its own right on the first working day of April, at ten o'clock in the morning in the main office of the administration. In this case, the presence of one or more shareholders will suffice to

meet and decide validly, whatever the number of shares represented. Extraordinary meetings shall be held when the needs of the Company so require, by convocation of the Board of Directors, the President of the Company or the tax auditor, or when ordered by official bodies that have legal competence for this purpose.

Paragraph 1.- Those who, in accordance with this article, may convene the Shareholders' Meeting must also do so when requested by shareholders representing at least 10% or more of the share capital. In this case, the call will be made within 5 common days following the day on which it is requested in writing.

Paragraph 2.- The provisions of this article do not prevent non-presential or mixed meetings or decisions to be taken by written vote in the terms authorized by law.

Article 31.- The meetings of the Shareholders' Meeting shall be convened by notice in any newspaper circulating at the registered office of the Company, or by any written means addressed to all shareholders. When the meeting is extraordinary, the agenda shall be inserted in the notice.

For meetings at which the general purpose, separate and consolidated year-end financial statements are to be approved, the call shall be made at least 15 working days in advance. In other cases, an advance notice of 5 common days will suffice. For the calculation of these periods, the day of the convocation or the day on which the meeting is to be held shall not be considered.

Paragraph.- When it is intended to discuss the increase in the authorized capital or the decrease in the undersigned, the respective item must be included in the agenda indicated in the call, under penalty of ineffectiveness of the respective decision. In these cases, the directors of the Company will prepare a report on the reasons for the proposal, which must be made available to shareholders during the period of the call at the offices of the Company's administration. In cases of division, merger and transformation, the respective projects must be kept available to shareholders at the offices of the Company's principal place of business, during the same term as the convening of the meeting where the proposal is to be considered. Likewise, the call must include the point and expressly indicate the possibility that shareholders have to exercise the right of withdrawal, under penalty of ineffectiveness of the decision.

Notwithstanding the foregoing, the Shareholders' Meeting may meet anywhere, deliberate and decide validly, without prior convocation when all the subscribed shares are represented.

Article 32.- There shall be a quorum to deliberate at both ordinary and extraordinary meetings, with a plural number of shareholders representing at least half plus one of the subscribed shares.

If, due to lack of quorum, the Shareholders' Meeting cannot meet, a new meeting will be called on second call in which it will meet and decide validly with one or more shareholders, regardless of the number of shares represented. The new meeting must be held no earlier than 10 days and no later than 30 days, both terms of working days, counted from the date fixed for the first meeting.

Paragraph.- The repurchased treasury shares that the Company has in its possession will not be computed, in any case, for the formation of the quorum.

In return, the segregating company receives shares, quotas or shares of interest in the recipient company.

A contribution in kind is only considered to be a segregation when as a result of it a line of business, commercial establishment or there is a significant change in the development of the corporate purpose of the segregating company.

It is presumed that there has been a significant change in the development of the corporate purpose of the segregator when the net value of the assets equals or exceeds 25% of the total equity of the respective company or when the assets
